

1 You can request client portal access through the NorthKey Care Team

You will be sent a link to the client portal via email

2

3 Follow this link provided in your email to the portal and enter your registration key

Fill in first and last name, birth month and day, then click next

4

5 Create your user name and password then click next

Answer three security questions and then click continue

6

7 The next screen you see will be the Client Portal Homepage

If you experience any issues with the portal please contact your care team!
